En DOGA fabricamos una amplia gama de sistemas lavaparabrisas y accesorios que ofrecen soluciones adecuadas para cada vehículo o máquina proporcionando una máxima limpieza de los cristales.

Gracias a la implementación de la nueva tecnología inteligente asociada a la Industria 4.0 hemos logrado automatización y optimización en cada uno de los procesos de fabricación garantizando una máxima calidad en cada producto.

Nuestro equipo de ingenieros trabaja en formato multidisciplinar ofreciendo así una respuesta competencial a las nuevas exigencias tecnológicas. Cada proyecto recibe un trato individualizado y personalizado y se desarrolla aplicando todo el conocimiento que nos aporta este nuevo modelo de industria que ofrece un máximo beneficio a nuestros clientes.

DOGA fabbrica un'ampia gamma di sistemi lavaparabrezza e accessori che offrono soluzioni adeguate a ogni veicolo o macchina per una pulizia dei vetri eccellente.

Grazie all'introduzione di nuove attrezzature con una tecnologia di ultima generazione che rispetta tutti gli standard dell'Industria 4.0, siamo riusciti a ottenere un'automatizzazione e ottimizzazione in ciascuno dei processi di fabbricazione, garantendo la massima qualità in ogni prodotto.

Il nostro team di ingegneri lavora in formato multidisciplinare offrendo in questo modo una risposta agile ed effettiva alle nuove esigenze tecnologiche, e ogni progetto segue la metodologia più adeguata per rispettare e superare tutti i requisiti dei clienti e dell'industria.

DOGA manufactures a wide range of windshield washer systems and accessories that offer appropriate solutions for each vehicle or machine, providing maximum glass cleaning.

Thanks to the incorporation of new state-of-the-art equipment that meets all Industry 4.0 standards, we have achieved automation and optimization in each of the manufacturing processes, therefore guaranteeing maximum quality in each product.

Our team of engineers works in a multidisciplinary fashion, thus responding in a streamlined manner and effectively to the new technological requirements. Each project follows the most appropriate methodology to meet and exceed the requirements of customers and their industry.

Chez DOGA, nous fabriquons une vaste gamme de systèmes lave-glaces et d'accessoires qui offrent des solutions appropriées pour chaque véhicule ou machine en fournissant un nettoyage optimal des vitres.

Grâce à l'intégration de nouveaux équipements de dernière technologie qui satisfont toutes les normes de l'Industrie 4.0, nous avons obtenu une automatisation et une optimisation dans chacun des processus de fabrication, en garantissant ainsi une qualité maximale dans chaque produit.

Notre équipe d'ingénieurs travaille d'une façon multidisciplinaire en donnant une réponse rapide et efficace aux nouvelles exigences technologiques. Chaque projet suit la méthodologie la plus appropriée pour satisfaire et dépasser les exigences des clients et de l'industrie.

Bei DOGA fertigen wir eine breite Palette von Scheibenwischersystemen und Zubehör, die angemessene Lösungen für alle Fahrzeuge oder Maschinen bieten und eine maximale Reinigung der Scheiben gewährleistet.

Dank der Einführung neuer Anlagen auf dem jüngsten Stand der Technik, die alle Industriestandards 4.0 erfüllen, haben wir jeden unserer Fertigungsprozesse automatisiert und optimiert und bieten so höchste Qualität bei allen Erzeugnissen.

Unser Ingenieursteam arbeitet multidisziplinär und bietet so eine rasche und effektive Reaktion auf neue technologische Ansprüche und für jedes Projekt wird die am besten geeignete Methodologie angewandt, um so die Ansprüche der Kunden und ihrer Industrie zu erfüllen und zu bewältigen.

ESQUEMA DE MONTAJE - SCHEMA DI MONTAGGIO MOUNTING DIAGRAM - SCHEMA DE MONTAGE - MONTAGESCHEMA

PROYECTOS ÚNICOS. Nuestro equipo de ingenieros convierte cada proyecto en un reto y los espacios reducidos, depósitos especiales o accesorios originales se convierten en un reclamo para innovar y diseñar equipos lavaparabrisas perfectamente adecuados para cada necesidad.

La creación de prototipos 3D, mejoras en los procesos de fabricación, conectividad o análisis predictivos son solo una muestra del avance tecnológico incorporado a DOGA que se revierte en un diseño de producto funcional, coherente y personalizado para cada cliente.

PROGETTI UNICI. Il nostro team di ingegneri trasforma ogni progetto in una sfida; spazi ridotti, serbatoi speciali o accessori esclusivi che diventano un richiamo per innovare e progettare attrezzature lavaparebrezzi che si adattano perfettamente a ogni necessità.

La creazione di prototipi 3D, nuovi processi di fabbricazione o connettività sono solo un esempio del progresso tecnologico di DOGA, che si traduce in un design di prodotto funzionale, coerente e personalizzato per ogni cliente.

UNIQUE PROJECTS. Our team of engineers turns each project into a challenge; reduced spaces, special tanks or exclusive accessories become a claim for innovating and designing windshield washer equipment that are perfectly suited for every need.

The creation of 3D prototypes, new manufacturing processes or connectivity are just a sample of the technological advances incorporated by DOGA, which translates into a functional, coherent and bespoke product design for each client.

PROJETS UNIQUES. Notre équipe d'ingénieurs fait de chaque projet un défi ; les espaces réduits, réservoirs spéciaux ou accessoires exclusifs deviennent une revendication pour innover et concevoir des dispositifs lave-glaces parfaitement adaptés à chaque besoin.

La création de prototypes 3D, les nouveaux processus de fabrication ou de connectivité ne sont qu'un exemple de l'avancement technologique intégré chez DOGA, qui aboutit à une conception de produit fonctionnel, cohérent et personnalisé pour chaque client.

EINZIGARTIGE PROJEKTE. Für unser Ingenieursteam stellt jedes Projekt eine Herausforderung dar: begrenzter Raum, besondere Behälter oder exklusives Zubehör stellen einen Anspruch an Innovation und Design von Scheibenwischeranlagen dar, die sich perfekt an jeden Bedarf anpassen.

Die Erstellung von 3D-Prototypen, neue Fertigungsprozesse oder Anschlussmöglichkeiten sind nur ein Beispiel für den technologischen Fortschritt, der bei DOGA eingeführt wurde, wodurch ein funktionelles, stimmiges und individuelles Produktdesign für jeden Kunden entsteht.
